Number of Projects: 0

Project Description

Center of Excellence state and municipal employees at KNU. Balasagyn Kyrgyzskoy Republic is designed to carry out planning, organizational support and professional development of state and municipal employees Kyrgyzskoy Republic.

Center of Excellence state and municipal employees in accordance with the Constitution and of the Law, other regulations and agreements and treaties with international organizations and cooperation agencies in educational programs.

The mission of the organization.

The main purpose of the Center of Excellence state and municipal employees is to promote quality improvement through:

- Training and professional development of state and municipal employees Kyrgyzskoy Republic;
- Training of applicants for positions of state and municipal employees Kyrgyzskoy Republic.

Analysis of the problem

In Kyrgyzstan, as in some other post-Soviet states from the state is required to use certain measures to develop the professionalism of public servants and municipal services. This is due primarily to the fact that in the Act, the CD has been a change and additions. New roles and responsibilities of state and municipal employees require their education and awareness training. This requires the preparation of collections of materials, trainings, seminars, publication metodichesk, booklets. To achieve these objectives there is a desire to promote and support learning from the leadership of KNU. Balasagyn.

Project Objectives

This project is proposed to hold seminars and training sessions with experts and specialists (possibly international). The target audience will consist of state and municipal employees.

Information on scheduled projects TEMPUS: The institute is looking for new partners to enable the Institute of Public Management in the implementation of priority programs TEMPUS: "Improving the quality of public and municipal employees."
